

Make your own fossils

You will need:

Quick Drying Clay

Items to create your fossil

(such as shells, twigs or plastic animal figures etc)

1. Roll your ball of clay into a circle (around 5-10cm wide)
2. Press your item into the clay hard enough to leave an imprint
3. Decorate your clay with as many fossils as you like
4. Leave to dry in a warm dry place over night
